Summary Information - Reports

This page displays the available reports that can be requested from Dubai Trade. This guide details all the reports found in Dubai Trade and the navigation steps to generate these reports.

This Manual comes in 2 parts. The first is how to request refresh or generate a specific report, the second is how to download these reports.

Go to **Summary Information>Reports**

This screen appears:

Available Reports

As you can see there are four different columns on the Available Reports.

Description lists the names/types of the reports that can be generated.

Last Generated On is the date of the last request or report generated from the report type.

View Status is used to view the status of a requested report. It usually takes a period of not more than 24 hours for the report to be generated after a request refresh.

Request Refresh is used to generate a desired report from the list.
